

FOR IMMEDIATE RELEASE

Apex® HCM Employees Donate of 6,000 Food Items for Thanksgiving

Roswell, GA. (November 17, 2017) – Apex HCM, a leader in payroll and human capital management, proudly announced today the generosity and community concern of its Atlanta employees in the donation of over 6,000 food items to the Fulton County Family Charities Thanksgiving food drive.

Apex HCM regularly supports several community service organizations to raise money, build homes, and provide food and clothing to those in need. Participating in the Fulton County Family Charities Thanksgiving food drive for the second year, Apex's growing staff size directly translated into a far larger food drive donation for 2017.

Lauren Garza, Content Developer, and coordinator of the food drive, commented, "I am so proud of my Apex colleagues for the time and effort that everyone contributed to help us provide a truck full of Thanksgiving food to Fulton County Family Charities." Garza added, "I am also proud that this food drive event represents just one of the many community service projects that Apex supports throughout the year."

Marty Hamby, President, Apex HCM, stated, "At Apex we talk everyday about serving our customers. But we also talk about serving our community. While community involvement is an Apex value, it's really the employees that make it all happen."

About Apex® HCM:

Apex HCM is a market leader in licensing cloud-based payroll and HR software technology and over 250 payroll service firms and vendors nationally use Apex's technology as the core of their business foundation. Apex's customizable, comprehensive suite of products and services include payroll, payroll tax, human capital management, applicant tracking and onboarding, time and attendance, reporting, manager and employee self-service, ACA compliance, mobile apps, workers' compensation, payroll debit cards and other business management tools normally reserved for large enterprises, now available to any business size. Apex's cutting-edge, cloud-based technology allows its customers to effectively compete feature-for-feature with larger established firms while dramatically improving their workforce productivity.
